

FACT SHEET

Book formatting for print and ebook, from first draft to finished book.

Paperlight is a book formatting tool and free writing desk for self-publishing authors. Writers bring a Word manuscript, or write in Paperlight, and get a print-ready PDF for Amazon KDP, IngramSpark, Barnes & Noble Press, Lulu and Bookvault, plus an EPUB ebook for every store. It offers 115 book styles, 478 drawn ornaments and 28 trim sizes, runs in the browser on any computer, keeps every manuscript on the writer's own computer, and never uses AI to write. Writing and ebooks are free; print-ready files cost \$12 a year.

print services

What it does

- Imports a Word manuscript: finds chapters and scene breaks, fixes spacing and punctuation slips.
- Lays the book out as it will print, page for page, live as styles change.
- A full style editor: 91 fonts or your own, initials and 478 ornaments.
- Builds to Amazon KDP, IngramSpark, Barnes & Noble Press, Lulu and Bookvault rules, then checks the saved PDF.
- Paperback, large print, hardcover and colour; box sets; advance reader copies; free samples.
- EPUB ebooks that pass EPUBCheck and the DAISY Ace accessibility check.
- Proofread: possible misspellings and repeated words, for the writer to decide.
- A free writing desk: outline, goals, story bible, saved versions, focus mode.

Pricing

\$0: writing, the live preview, every style and trim size, and ebooks.

\$12 a year (works out to \$1 a month): print-ready PDFs and printer packs, large print, hardcover and colour, box sets, review copies and samples.

Privacy

No account needed to start. Manuscripts never leave the writer's computer. No AI writing, ever.

Works in

Any current browser on Windows, Mac, Linux or Chromebook. Print PDFs are tested in Chrome, Edge, Brave, Opera and Vivaldi.
